Unique Hybrid+ technology supports three different camera technologies offering tribrid flexibility

» Hybrid+ technology supports HD-TVI, traditional analog, and Alibi IP cameras
» Supports up to 16 total cameras: 16x HD-TVI and/or analog (any combination), 2x Alibi 1080p IP cameras can replace 2x analog channels
» Capable of recording 1080p full HD resolution real-time video @ 30 fps per channel
» HD-TVI technology transmits zero latency HD video up to 1,600' over coax cabling
» Fully compatible with all HD-TVI and analog cameras (any brand)
» Control camera OSD settings over coax cabling (no extra data cable needed)
» Central Management Software (CMS) can manage up to 256 devices across multiple locations from a single platform
» VGA and HDMI output at up to 1920×1080 (1080p) resolution
» H.264 video compression to maximize recording time and save hard drive space
» Multiple selectable recording modes (continuous, motion detection, schedule and event)
» Recording features include event search, event log, and email notification
» Free iOS and Android mobile app for remotely viewing live and recorded video
» Supports up to 16TB internal storage (4x 4TB hard drives max)

This Alibi Hybrid+ DVR comes with a 3-year warranty, 30-day money-back guarantee and free US-based technical support.

7 Benefits of HD-TVI Technology

↘ **Megapixel Resolution**
High-definition images provide forensic detail and digital zoom capabilities

↘ **Simple Installation**
No IP-networking required! Installs as easily as a standard analog CCTV camera

↘ **Lower Cost**
HD solutions offer megapixel resolution at a fraction of the cost of IP

↘ **Zero Latency**
Monitor video in real-time, without the transmission delays common to IP solutions

↘ **Low Cabling Requirements**
Transmit HD video fast – and with high signal quality, regardless of cable quality

↘ **Longer Transmission**
Transmit HD video up to 1600' over standard CCTV cable – 3X the distance of IP systems

↘ **Transition Friendly**
Compatible with existing CCTV cameras and existing cables

Don't just take our word for it!

Call today to see a **live video demo** of the Alibi Hybrid+ DVR with our HD-TVI cameras.

ALIBI™

Feature-Packed IP NVRs

All Alibi NVRs feature an integrated PoE switch

This SwitchBox NVR delivers an IP network recording solution—without the complexity. It features an integrated 4-port PoE (Power over Ethernet) network switch to power your IP network cameras directly through the network cable—so you don't need to buy a separate network switch.

3000 Series SwitchBox NVR

» Plug and play support for compatible IP cameras
(Up to 2.0 megapixel resolution)
» 4 or 8 independent PoE network ports
with integrated network switch
» Up to 4TB security-grade hard drive
» Linux embedded operating system
» VGA and HDMI video outputs
» H.264 video compression
» Multiple selectable recording modes
(continuous, motion detection, and scheduled)
» Additional features: event log, and email and event notification
» Free iOS/Android app available

Includes 3-year warranty and 30-day money-back guarantee.

TRUSTED SECURITY SOLUTIONS

Change the Way You Think About Access Control

infinias
Simple. Scalable. Secure.

Traditional access control means huge piles of multi-colored wires. IP-based access control has changed all that!

When thinking about traditional access control, most consumers and installers imagine miles of multi-colored cable, all leading from each door to a dusty server closet. infinias IP-based access control changes all that. Leveraging Power over Ethernet (PoE), the infinias eIDC^{32} door controller only requires a single network cable running to your door. Avoiding the tangle of wires, infinias IP-based access control delivers tremendous cost-savings along with the scalability, flexibility, and power security professionals have come to expect from IP-based solutions.

Traditional Panel-based Access Control

TIRADE®
Screaming Fast Wireless Video

Never Run Cables Again.

Tirade wireless video products allow you to place cameras wherever you need them, without having to run video cable. Up to 90Mbps of true throughput and 25+ IP cameras on a single wireless network makes Tirade an effective and powerful solution.

↳ There's no need to excavate and run video cables

↳ The video signals are digitally secured protecting you from hackers and criminals

↳ It's easy to set up

Tirade allows you to put cameras wherever you need them and send the video signal wirelessly back to the access point. Great solution for campuses!

Outdoor Wireless Access Points
